

Quality house cleaning from the people you can trust

Merry Maids provide locally owned domestic cleaning services to homeowners across the UK. Operated by people who appreciate that their customers' time is valuable and their trust priceless, Merry Maids franchise owners take pride in taking care of the homes in their local community.

Unlike many domestic cleaning service providers Merry Maids are fully insured and provide necessary cleaning equipment and products. Their staff are recruited and trained and are backed up by the Merry Maids Guarantee.

Merry Maids provide a customised cleaning solution. They offer their customers regular and one-off cleans, working around their customer's requirements to tailor a service to them. It is this personalised touch that makes Merry Maids one of the leading domestic cleaning companies.
